These financial statements are the responsibility of Callaway Financial Services, Inc.'s management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Note 1 - Nature of Business and Summary of Significant Accounting Policies

Nature of Business:

Callaway Financial Services, Inc. (the Company) was organized in January 2000 as a Texas corporation. The Company is a subsidiary of CFS Holdings, Inc., an S corporation, (Parent) owning five percent (5%) of the Company, and MDX Holdings Inc., an S corporation, (Parent) owning ninety-five percent (95%) of the Company.

The Company is registered with the Securities and Exchange Commission (SEC) as a broker-dealer in securities and is a member of the Financial Industry Regulatory Authority (FINRA) and Securities Investor Protection Corporation (SIPC).

The Company operates under the exemptive provisions of Rule 15c3-3(k)(2)(ii) of the Securities Exchange Act of 1934, and accordingly, is exempt from the remaining provisions of that Rule. The Company does not hold customer funds or securities, but as an introducing broker-dealer, will clear all transactions on behalf of customers on a fully disclosed basis through a clearing broker-dealer. The clearing broker-dealer carries all of the accounts of the customers and maintains and preserves all related books and records as are customarily kept by a clearing broker-dealer.

The Company is a general securities broker-dealer whose customers consist primarily of individuals and retirement plans located in Texas.

Significant Accounting Policies:

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of the assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Fair Value of Financial Instruments

Substantially all of the Company's financial asset and liability amounts reported in the statement of financial condition are short term in nature and approximate fair value.

Nature of Business and Summary of Significant Accounting Policies

Revenue Recognition

Securities commissions and the related expenses are recorded on a trade date basis as securities transactions occur.

Note 2 - Net Capital Requirements

The Company is subject to the SEC Uniform Net Capital Rule (SEC Rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. Rule 15c3-1 also provides that equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1. At December 31, 2017, the Company had net capital of \$33,075, which was \$28,075, in excess of its required net capital of \$5,000. The Company's net capital ratio was .19 to 1.

Note 3 - Transactions with Clearing Broker-Dealer

The Company has an agreement with a clearing broker-dealer to provide clearing, execution and other related securities services. Clearing charges are incurred at a fixed rate multiplied by the number of tickets traded by the Company. There is a minimum clearing and execution fee of \$2,500 per month. The agreement also requires the Company to maintain a minimum of \$25,000 in a deposit account with the clearing broker-dealer.

Note 4 - Related Party Transactions / Economic Dependency / Concentrations

The Company and its Parent Companies are under common control and the existence of that control creates operating results and financial position significantly different than if the companies were autonomous.

The Company has a Services Agreement (Agreement) with its Parent MDX Holdings Inc. The Agreement is for a one year term, automatically renewed on a year to year basis unless terminated by any of the parties on 30 days notice prior to expiration of an annual term. Under the Agreement, the Parent is to provide office facilities, personal property and support services, with rent for the office space waived through the end of June 2017. The Parent issues monthly invoice to the Company that represents the Company's allocable share of services provided by the Parent. Net services allocation – Parent, incurred and paid, totaled \$8,185.44 under this Agreement for the period ending December 31, 2017.

The Company has two Parent companies, with owners of both being registered securities representatives of the Company. However, the original owner and producing representative still generates the majority of the revenue of the Company.

CFS Holdings Inc. is a Parent Company, and its sole shareholder is a registered securities representative and officer of the Company. As a producing representative, he generated approximately 51% of the Company's revenue. The Company is economically dependent upon the Parent's sole shareholder due to the concentration of services provided.

Note 5 - <u>Income Taxes</u>

The Company made a profit of \$9,804 for the year. The Company has a net operating loss carryforward of approximately \$57,384 which is available to offset future taxable income. The net operating loss carryforward creates a deferred tax asset of approximately \$47,580 after using \$9,804 in 2017 which is fully reserved with a valuation allowance; therefore, there is no deferred tax asset recognized in the accompanying statement of financial condition.

As of December 31, 2017, open Federal tax years subject to examination include the tax years ended December 31, 2014 through December 31, 2016.

Note 6 - Off-Balance-Sheet Risk and Concentration of Credit Risk

As discussed in Note 1, the Company's customers' securities transactions are introduced on a fully disclosed basis with its clearing broker-dealer. The clearing broker-dealer carries all of the accounts of the customers of the Company and is responsible for execution, collection and payment of funds, and receipt and delivery of securities relative to customer transactions. Off-balance-sheet risk exists with respect to these transactions due to the possibility that customers may be unable to fulfill their contractual commitments wherein the clearing broker-dealer may charge any losses incurred to the Company. The Company seeks to minimize this risk through procedures designed to monitor the credit worthiness of its customers and that customer transactions are executed properly by the clearing broker-dealer.

The Company has commissions receivable and a clearing deposit due from and held by its clearing broker-dealer of \$10,334 and \$25,022, respectively, totaling \$35,356, which represents approximately 60% of the Company's total assets.

Note 7 - Commitments and Contingencies

There are currently no asserted claims or legal proceedings against the Company; however, the nature of the Company's business subjects it to various claims, regulatory examinations, and other proceedings in the ordinary course of business. The ultimate outcome of any such future action against the Company could have an adverse impact on the financial condition, results of operations, or cash flows of the Company.

Note 8 - Subsequent Events

Management has evaluated the Company's events and transactions that occurred subsequent to December 31, 2017, through February 19, 2018 the date the financial statements were available to be issued.
